

It was a simple task, all I had to do was download the new game and unzip it file. But when I tried to play the game, it didn't work. It said some sort of password or something to activate the downloader. I tried every possible combination of letters and numbers, including all twelve words from a Caesar cipher, but nothing worked. I had about given up when it occurred to me I hadn't tried the most obvious answer. It was possible it wasn't a password at all, but a key. So I put in 12345678 and hit enter, and then continued my search for the real password. However, it was not 12345678, and I doubt that it actually is ever. The code for this is: "This code unlocks the game: 0 0 0 1 1 1 0 0 0 1" which is more of a set of coordinates than a key, but after 37 attempts to decipher the message he found that they were coordinates leading him to the planet of Reach. On July 7th, 2014 it was announced that an HD remake of Combat Evolved will be released and titled Halo: The Master Chief Collection and will feature online 1v1 multiplayer and many other features. This announcement came not too long after their announcement of the Master Chief collection for Xbox One. The game is expected to be released on November 11th, 2014.

"Halo 2" has received two official sequels, "" and "" . "" is a spiritual successor to the original , continuing the story of Master Chief's last stand against mankind's greatest enemy, the Covenant, who are hell-bent on taking over Earth with their mysterious leader , the Prophet of Truth . The location of Truth has been revealed to be "High Charity", an orbiting space station that acts as a central hub for the entire Covenant empire. The game features the return of several major characters from the original , including Thel 'Vadam, the Arbiter, John-117, Cortana, Sergeant Johnson, and 343 Guilty Spark. The sequel also introduces two new enemies to fight in the Flood, which are an alliance between the parasitic Flood and the parasitic Flood-infected humans . Halo 3 continues Master Chief's story after the events of "Halo 2", in which he is tasked with finding a replacement for Cortana before she dies. The Covenant leader, Truth, has taken over Earth with his army in search for something called "the Ark", which holds a weapon that can wipe out all life in this galaxy.
